

Calci-Kleen

Glue Roll Calcium Remover

DESCRIPTION

Calci-Kleen is specifically designed to dissolve the toughest hard water scale, lime, and rust deposits from corrugator glue rolls and other equipment. This powerful liquid is non-toxic, non-flammable, non-hazardous, non-corrosive and biodegradable. This means that Calci-Kleen will not harm box plant personnel, equipment or the environment.

Most equipment will be thoroughly cleaned in just a few hours. There is no need for labor intensive scrubbing or acid washes. Calci-Kleen only needs to be added directly to an empty starch pan and allowed to soak glue rolls for 15 minutes. Then simply return the Calci-Kleen to the original drum or rinse down the drain, and wash off the glue rolls with running water.

CUSTOMER BENEFITS

- Fast and easy to use
- Biodegradable
- USDA Approved
- FDA Approved
- Eliminates soda blasting of rolls

FEATURES

- Removes hard water and waste water deposits
- Can be reused
- Non-Toxic
- Non-Hazardous
- Non-Corrosive
