

# HRC-2000

Performance Enhancer For High Ring Crush Liners  
80 - 150 #'s in a 700 Gallon Batch

## DESCRIPTION

*HRC-2000* is the newest addition to our line of Liquid Performance products. This unique blend of proprietary performance ingredients includes both a penetrating and a corrugator performance enhancer to increase speed on difficult to bond substrates. The three-year development of this product resulted in an industry first—a single product to provide higher speeds and better bonding of High Ring Crush Liners.

## CUSTOMER BENEFITS

- Only product of its kind
- With single application, get better bonding and increased corrugator production capability
- Simple, versatile, and cost effective
- Adhesive "runs clean" through corrugator
- Easy clean-up
- Improved corrugator speeds

## FEATURES

- Increased pin values and corrugator speeds with single, simple application
- Liquid form
- *Safe to use*
- Odorless
- Proprietary additives give adhesives better penetration and water holdout.
- Viscosity stability
- Improvements in bond quality resulting in increased pin adhesion and fiber tear

## PACKAGING

 Liquid
