

# LiquiBond<sup>®</sup> Blue

Performance Enhancer  
50 - 150 #'s in a 700 Gallon Batch

## DESCRIPTION

*LiquiBond<sup>®</sup> Blue* is a unique fourth generation product in our line of *LiquiBond<sup>®</sup>* performance products. It features a specific blend of proprietary corrugator performance enhancing ingredients. *LiquiBond<sup>®</sup> Blue* provides higher speeds and improved bonding on heavy weight paper and difficult to penetrate substrates.

## CUSTOMER BENEFITS

- Liquid, ready to use, convenient
- Well suited for automated additions
- Distinctive blue color for easy product recognition
- Adhesives will "run clean" through the corrugator.
- Easy clean up
- Viscosity stability
- Improvements in bond quality resulting in increased pin adhesion and fiber tear
- Corrugator speed advantages on all grades of paper including heavyweights

## FEATURES

- Near neutral pH
- *Safe to use; contains no hazardous ingredients*
- Contains proprietary penetration additives
- Provides improved water holdout
- Odorless
- Presence in adhesive storage or at the corrugator is negligible
- May be used with any wet strength resin system
- Highly compatible with all normal adhesive ingredients

## PACKAGING

 Liquid

**Color:** Blue
