

# LiquiBond® Green

Performance Enhancer

100 - 150 #'s in a 700 Gallon Batch

## DESCRIPTION

*LiquiBond® Green* is a unique fifth generation product in our line of *LiquiBond®* performance products. It features a specific blend of proprietary corrugator performance enhancing ingredients. *LiquiBond® Green* provides higher speeds and improved bonding on all grades of paper including heavy weight, double wall, triple wall, and difficult to penetrate substrates.

## CUSTOMER BENEFITS

- Liquid, ready to use, convenient
- Well suited for automated additions
- Distinctive green color for easy product recognition
- Adhesives will "run clean" through the corrugator.
- Easy clean up
- Viscosity stability
- Improvements in bond quality resulting in increased pin adhesion and fiber tear
- Corrugator speed advantages on all grades of paper including heavyweights, DW, and TW

## FEATURES

- Near neutral pH
- *Safe to use; contains no hazardous ingredients*
- Provides improved water holdout
- Odorless
- Presence in adhesive storage or at the corrugator is negligible
- May be used with any wet strength resin system
- Highly compatible with all normal adhesive ingredients
