

# LiquiBond® IIA

Performance Enhancer

100-150#'s in a 700 Gallon Batch

## DESCRIPTION

*LiquiBond®* IIA is our unique third-generation adhesive performance enhancer that combines natural and man-made ingredients in a highly refined formula unlike any other specialty additive. It is designed to be used on any board grade combination, including heavyweight singlewall, or double wall that is not running up to expectations. *LiquiBond®* IIA will improve bonding on high performance high ring-crush liners or other difficult to bond substrates. *LiquiBond®* IIA customers get more out of their corrugators than they ever thought possible. Faster speeds and better bonds are just the beginning when a boxplant runs this cost-effective Liquid Performance Enhancer.

## CUSTOMER BENEFITS

- Speed increases up to 30%
- Single component, ready to use system
- Convenient; suitable for automated addition
- Increased green-bond strength
- More stable adhesive viscosity
- More stable gel point
- Drier, firmer board
- Reduced loose edges
- Superior film forming properties
- Minimizes waste
- Easy to pump from drums or convenient returnable tote bins

## FEATURES

- Increases carrier solids
- Provides better water holdout
- Contains proprietary penetration additives
- Easily post-added to any adhesive formula
- Good shelf life
- User friendly
- Biodegradable
- Boards are easily recycled.
- *Contains no formaldehyde*
- FDA approved: 21 CFR, Section 755.105
- *Very safe to use- contains no hazardous ingredients*
