

# Multibond

Performance Enhancer

80 - 150 #'s in a 700 Gallon Batch

## DESCRIPTION

*Multibond* is a unique fifth generation product in our line of performance liquid products. It features a specific blend of proprietary corrugator performance enhancing ingredients. *Multibond* provides higher speeds and improved bonding on all grades of paper including heavy weight, double wall, triple wall, and difficult to penetrate substrates. Includes wet strength resins to eliminate the need for two additives.

## CUSTOMER BENEFITS

- Liquid, ready to use, convenient
- Well suited for automated additions
- Distinctive purple color for easy product recognition
- Adhesives will "run clean" through the corrugator.
- Viscosity stability
- Improvements in bond quality resulting in increased pin adhesion and fiber tear
- Corrugator speed advantages on all grades of paper including heavyweights, DW, and TW

## FEATURES

- Near neutral pH
- *Safe to use; contains no hazardous ingredients*
- Provides improved water holdout
- Odorless
- Presence in adhesive storage or at the corrugator is negligible
- Includes wet strength resin to produce water resistant board.
- Highly compatible with all normal adhesive ingredients
