

# Safety Mix

No Caustic Carrier Product  
300 #'s in a 700 Gallon Batch

## DESCRIPTION

*Safety Mix* is a complete carrier product designed to eliminate the need for caustic soda in adhesive formulation. *Safety Mix* contains a blend of starches which give the finished adhesive superior penetration and film forming characteristics. When mixed with unmodified cornstarch, *Safety Mix* provides a complete corrugating adhesive. *Safety Mix* formulations can be customized to satisfy a variety of customer needs.

## CUSTOMER BENEFITS

- Eliminates caustic soda from the chemical inventory
- Enhances plant safety
- Eliminates carrier variability

## FEATURES

- A precision blend of different carbohydrates
- Eliminates handling caustic soda
- Complete carrier
- Flexible formulation
